

Chapter 1-14

Registration of Green Vehicles

Title or C/O

If you buy a new Motorcycle or Motorized Bicycle from a dealership they must provide you with the manufacturer's certificate of Origin (C/O). This document shows how the manufacturer and federal government define the body type and the cubic centimeters (cc) of the engine. Some C/Os will not have the cubic centimeters listed but will show horse power (hp). If your customer is purchasing a motorized bicycle make sure you find out the vehicles cubic centimeters and maximum speed.
